

Ready to deliver

“We are offering clients an unmatched and unbeatable proposition that ensures true realisation of the 3PL promise. The Pay per Use model we are offering clients will enable access to a world class facility with no capital expenditure and with the flexibility to scale up or down as per business needs”

*Anil Arora,
Managing Director, MJ*

MJ Logistic Services Ltd, a third party logistics (3PL) solutions provider, said it has set up first of its kind world class multi user logistics centre at Palwal in North India. The first phase is scheduled to go live with 200,000 sq ft of area having 20,000 pallet positions of ambient storage, and temperature controlled chambers from -25 degrees to 10 degrees centigrade under a single roof. The ultra modern facility is equipped with best in class infrastructure like high bay pallet racking, modern material handling equipment, efficient dock levellers and dock doors, cold store environment, full power back up with dedicated gensets, adequate internal and external lighting, best in class surveillance, access control, fire detection and fire fighting systems, planned storm water drainage and rain water harvesting systems, fully equipped office building including mess and wash area with lockers for workers, and sewage treatment plant. Recently, HCL Technologies Ltd (HCL), a leading global IT services provider, has entered into a three-year contract with M.J Logistic Services Ltd (MJ), a leading third-party logistics (3PL) solutions provider in India. The contract will enable MJ to focus on its core operations as well as manage the growing complexities of its logistics operations, reducing its cost of operations and enhancing inventory visibility. Strategically located to cover the Northern region, the Palwal facility will be the main hub with the soon to be developed centres at Zirakpur (Punjab) and Haridwar (Uttarakhand) as the spokes. The
